

A guide to the new...

Partners in Injury Reduction (PIR) Claims Summary Report

How to read the new report that summarizes the lost-time claims and claim costs used in PIR calculations. This report is produced only if claim costs are incurred.

Section 1 – Account/Report Information

- 1a Calculations use data up to this date.
- 1b The account(s) and industry(ies) used in the calculations.
- 1c The number of years an employer’s account was open during the three-year PIR measurement period divided by three. Please refer to the report glossary for more details.

Section A – Improving Your Performance Measure

Improving Your Performance (IYP) measures your improvement in preventing injuries and managing claims by comparing your current to your historical claims performance.

- A1 This section identifies payments in the current year (2000), for claims occurring in 1998, 1999 and 2000, and payments in the prior year (1999), for claims occurring in 1997, 1998 and 1999.
- A2 A3 For each year, the total PIR costs include claim costs less cost relief and costs over MPCC and MPIC. Please refer to the report glossary for MPCC and MPIC definitions.

Total Transaction Year: 1999 **(B3)** Total PIR Costs: \$19,203.85

(B4) Lenders: The following account/industries were included in calculating the measurements:

Account	Industry	Description
0000001	30100	STEEL/METAL FABRICATION

Section B – Maintaining Industry Leadership

Maintaining Industry Leadership (MIL) measures your claims experience relative to your industry rate group.

(B1) The current year section identifies total costs for claims occurring in 1998, 1999 and 2000. The prior year section identifies similar costs for 1997, 1998 and 1999 claims.

(B2)(B3) PIR costs are total claim costs less cost relief and costs over MPCC and MPIC. Please refer to the report glossary for MPCC and MPIC definitions.

(B4) The term “lender” refers to an employer whose insurable earnings and claim costs have been added to another employer’s experience record to determine applicable premium adjustments.
