

Being a
new worker can be a
painful experience.

If you
have questions
about safety...
ASK

You may not think your job is this dangerous. But if you're a new worker, think again. Last year nearly 52,000 new workers were hurt on the job in Alberta – a truly scary figure. Remember, if you're new on the job, you're at risk on the job.

HEADS UP
work smart. work safe.
